PROFESSIONAL SUMMARY

I'm an aspiring software developer who's been developing his skills to be an asset to any company wanting a strong worker. I can work on the front end with HTML, CSS, Javascript. Or the back end using PHP, databases, Java, C++, etc. I have experience in developing in 'software as a service' platforms, such as Salesforce, that have their own proprietary technologies. I'm very flexible and capable of picking up new technologies quickly.

Skills

Programming languages: C, C++, Java, Python, GML, HTML, CSS, PHP, JavaScript, SQL

General Technologies: Database; PostgreSQL, MySQL, Oracle , Android development*, Visual Studio, VS Code, Virtual machine and operating system.

Course Work: Data Structures, Database & SQL, Algorithms, Web Development (PHP focused)

Salesforce Front-End: Service cloud, sales cloud, reports, charts, dashboards, lightning pages, standard and custom objects, process builder, workflow rules, cloud flow, assignment rules, escalation rules, approval processes, and e-mail services, security, user management.

Salesforce Back-End: apex classes, triggers, handlers, controllers, visualforce pages, aura applications and components, testing.

*Limited experience = **

Education

Bachelor's in Computer Science

Aug 2016 – May 2019

Elizabeth City State University

GPA: 3.769

Salesforce Bootcamp

August 2019 – September 2019

Revature

Obtained my salesforce administrator certification, worked on both a budget app and a quiz app.

I designed and created the components of the budget app as a solo project. Set up the security, automated processes, triggers, testing. As a result of my planning and execution I was able to deliver a satisfactory product.

Skills used: Sales Cloud, Service Cloud, Workflows, Process Builder, Apex, Apex Testing

For the quiz app I was responsible for creating the user interface, creating controllers and testing. As a result of my contributions, we were able to present a functional quiz app.

Skills used: Apex, Developer Console, Visual Studio Code, SOQL, SOSL, Visualforce, Process Builder, Workflows, Agile, HTML, CSS, Data Modeling, Cloud Flow Designer

Certifications

Salesforce Certified Administrator | Certification Number: 20454236 | Issued On: 09-13-2019

Achievements

1st place team at 2018 IBM Impact Hackathon.

Our project was a smart home system that monitored utility usage. The system utilized IBM's Watson AI so that it could take questions from the user and send back relevant data. My contribution was integrating Watson.
